UNIT 4 – Health and Human Development in a global context
AREA OF STUDY 2 – Health and the Sustainable Development Goals
OUTCOME 2 – Analyse relationships between the SDGs and their role in the promotion of health and human development, and evaluate the effectiveness of global aid programs

KEY KNOWLEDGE – Features of effective aid programs that address the SDGs and examples of effective implementation, with details of one such program including:
-its purpose and the SDGs addressed
-details of implementation and the partnerships involved
-contribution to promoting health and wellbeing, and human development

Ways in which individuals can engage with communities and/or national and international organisations to take social action that promotes health and wellbeing

Textbook Pages – 491-539 (the final page of your textbook) – yippee! – it seems quite a few pages – but note that you are asked to know details of ONE PROGRAM – not the whole 7 in the chapter in detail.

1. The SDGs have been developed to provide the framework for global action – to address inequalities, reduce poverty and achieve sustainable human development – the aid programs addressing them need to be effective and there are 4 features of effective aid programs –
   1. Ownership of development priorities by the country itself
   2. A focus on results
   3. Partnerships for development
   4. Transparency and shared responsibility – describe each of these features

2. Copy or photo copy Figure 13.2 on page 492

3. For each of the 7 SDGs provide a brief overview of a program for each – see table below:

<table>
<thead>
<tr>
<th>SDG/program</th>
<th>Background and purpose</th>
<th>Implementation</th>
<th>Outcomes</th>
<th>Promotion of Health and wellbeing and human development</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nuton Jibon livelihood improvement program in Bangladesh</td>
<td></td>

</tr>
</tbody>
</table>

4. Select one of the programs and take comprehensive notes on this – watch any videos/shorts related to it also – this will be the one aid program that you will not in detail for your SAC and the end of year exam – as per the study design information.

5. Define – “social action” – explain the 5 reasons why people might engage in social action – and then detail the 9 ways that people can take social action?

6. Read the Case Study on pages 526-527 and answer the 3 questions that follow?

7. Explain briefly the 2 examples of social enterprises of “who gives a crap” and “fair trade”?

8. “Buying products from producers in low-income countries at a fair price is a more efficient way of promoting sustainable development than traditional charity and aid” Explain whether you agree or disagree with this statement?

9. Read the Case Study on page 530 and answer the 3 questions that follow.
